A MISSIONARY WEDS IN DUBLIN

Mad Wolf Bites Dogs and There Is Fear of Hydrophobia.

Colonia Dublin, Mexico, Feb. 21.—Mr. and Mrs. S. J. Robinson gave a reception in honor of the marriage of their daughter, Lucile, to Adelbert Taylor. The preparations were elaborate and supper was served to 120 guests. While supper was being served a program consisting of songs, recitations, instrumental music and speeches was enjoyed. The groom, elder Taylor, is very much in love with the German people, having been a missionary there, and he says Germany is the best country in Europe. There are 150 missionaries laboring in Germany, and last year there were baptized into the Mormon church in that branch 900 persons. This is one of the most prosperous of the foreign missions.

Miss Louise Hansen is preparing to return to California with her father, Simon Hansen. He made a home in Gridley, but until now Miss Hansen has preferred to remain in Colonia Dublin.

Mrs. Eva Bowman, of Colonia Juarez, is visiting relatives and friends in Dublin.

E. L. Taylor and wife, Alonzo Taylor and wife, Guy Taylor and Miss Nora were down to attend the wedding.

A mad coyote entered the little town of Guadalupe. The dogs chased and fought it, but it escaped. Several dogs have been shot. Other dogs that were known to have been in the fight are being chained and if they show signs of hydrophobia, they will be shot.

The little son of Juan Pais, of Colonia Dublin, was attacked by a dog whose mouth was dripping with foam. Although it did not bite the boy, it tore his clothes and besmeared them, and the parents are considerably worked up over it.

Watching a Stomach Digest Food

Was the Means Whereby Science Made Possible the Cure of Dyspepsia.

A Trial Package of Stuart's Dyspepsia Tablets Sent Free.

The Abbe Steigman, the first scientist to study systematically the chemical powers of the gastric juice, but it was by the careful and convincing experiments of Beaumont that the foundation of our exact knowledge of its composition and action was laid.

Beaumont was an army surgeon, located at an obscure military post in Michigan, while it was yet a territory, and was called upon to treat a gun shot wound of the stomach in a Canadian voyageur—Alexis St. Martin. When the wound healed a permanent opening was left by means of which food could be placed in the stomach and gastric juice taken from it.

Beaumont made scientific experiments with his crude means and wrote a book, which today is recognized among the classics of physiology.

Beaumont blazed the way for other scientists so that today medicine knows what the stomach does with food and what food does to the stomach.

Science also knows what the gastric juices are and how to make them best for the system.

Stuart's Dyspepsia Tablets, thanks to the poor army surgeon and Alexis St. Martin, give man a means of digesting food, replenishing the exhausted juices, soothing the nerves and correcting dyspeptic conditions of the stomach.

Stuart's Dyspepsia Tablets are natural fruit and vegetable essences reduced in concentrated form and by tremendous power compressed into a tablet. These wonderful little digestors are known all over America and Canada. Full meals have been digested by them in glass tubes and they are sold by every druggist.

Physicians to the number of 40,000 use them. They are meritorious and powerful. Go to your druggist and buy a package today, price 50c, or send us your name and address and we will send you a trial package by mail free.
